

Rugged, Versatile, and User-Friendly

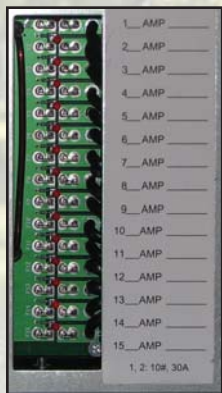

Model 3050-15 Distribution Panel

*Extensive distribution in a
streamline design.*

*For 30-amp, 120-volt or
50-amp, 120/240-volt systems.*

- Model 3050-15 is listed as a Class CTL Panelboard Type 1, which helps ensure safety and reliability to the highest industry standards.
- Streamline, space-saving dimensions. Cut-out size: 12.5" wide x 8.75" high
Width: 14" (across door)
Height: 9.5" (across door)
Depth: 4" (door and chassis)
- Weight: 11.5 lbs.
- Rugged steel construction stands up to the rigors of RVing mile after mile, year after year.
- 15 DC fuse circuit locations with blown fuse indicator lights accommodate amenities with user-friendly convenience.
- Provides locations for: up to five AC branch circuits in 30-amp, 120-volt systems (up to seven AC branches in Canada); up to 12 AC branch circuits in 50-amp, 120/240-volt systems.
- Decorative brown metal door is standard.
- Two-year warranty.

The 15 DC fuse circuit locations include blown fuse indicator lights for each circuit, making fuse replacement simple for RV'ers.

The 3050-15 accommodates:

- 30-amp, 120-volt main AC breaker with up to five AC branch circuits
- 50-amp, 120/240-volt main AC breaker with up to 12 AC branch circuits
- For Canada: 30-amp, 120-volt main AC breaker with up to seven AC branch circuits.

Meets or exceeds all RV listing requirements. Panel must be installed to applicable codes and standards. Specifications subject to change without notice.
